SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Regional EOC	Coastal Regional EOC	Southern Regional EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES INLAND REGION

Stanislaus River Erosion Incident, San Joaquin County

On 12/13/19 at 1503 hours, the California State Warning Center was notified by the Department of Water Resources Flood Operations Center (FOC) of significant erosion occurring on a bank on the Stanislaus River.

- No flooding is occurring and there is no emergency at this time.
- The site is on the right bank of the Stanislaus River at approximately Levee Mile 2.4.
- Reclamation District (RD) Engineers believe the damage was caused by a falling tree. The tree caused the water to swirl causing the erosion. They are concerned about other trees falling into the river and causing more issues.
- As of 12/21/19, the tree was moved closer to the bank to reduce the chance of future erosion. RD 2064 is evaluating removal of the tree at a later date.
- As of 12/21/19, the contractor has finished placing rock over the eroded bank, levee toe and waterside slope.
- The contractor will return on 12/27/19 to complete the levee road rehabilitation and seeding.
- Demobilization is now expected to be 12/27/19.

Activations

- Flood Operations Center (FOC) is activated at their lowest level.
 - Operational Period:
 - 0800 hours to 1500 hours on 12/24/19 and will be at Duty Officer status on Wednesday 12/25/19.
 - 0800 hours to 1700 hours during the week and Duty Officer status overnight and over the weekend.

Proclamations

- RD 2064 proclaimed a local emergency on 12/12/19.
- The San Joaquin County Director of Emergency Services proclaimed a local emergency on 12/13/19 in support of RD 2064.
 - San Joaquin County Board of Supervisors ratified the Proclamation on 12/17/19.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Isolated showers over the mountains today will be possible, however the remainder of the region will remain dry.
- The next system will move through on Christmas Day.
 - Most area of northern California will see less than half an inch.
 - Snow level will be low at 2,000 to 3,000 feet, but only 1-3 inches of snow accumulation will be possible over the northern Sierra.
- Dry weather will return Thursday into the weekend.

SOUTHERN CALIFORNIA

- Scattered showers will continue to diminish overnight and Tuesday morning.
 - Expect rain over the Central Coast early Wednesday morning, spreading over the entire area by Wednesday afternoon.
- Winter Storm Watch in effect from Wednesday afternoon through Thursday morning in the Santa Barbara County mountains.
 - Heavy snow and strong winds possible.
 - Total snow accumulations of 8 to 14 inches possible above 5,000 feet, and 4 to 8 inches above 3,500 feet.
 - East to southeast winds 20 to 30 mph with gusts to 45 mph are possible.
 - Significant reductions in visibility are possible from heavy snow, blowing snow, and fog. Travel could be very difficult.

WEATHER KEY POINTS

12/24/19 - 12/30/19

Tuesday

- Unsettled conditions continue statewide with chances for valley rain and mountain snowfall
 - Minor travel impacts over the mountains due to snow

Wednesday-Thursday

- Another round of locally heavy rain and isolated thunderstorms along with mountain snow Wednesday night into Thursday morning over the Southern Region
 - Urban flooding and rock slides are possible but no significant debris flows expected on recent burn scars
 - Heavy snow over the mountains will impact travel. Total snow accumulations of 4-8 inches above 3500 feet and 1-2 feet above 5000 feet are possible.

Friday-Saturday

- Dry conditions and warmer temperatures across the state with no significant impacts

Sunday

- Light rain across the northern coastal areas along with snow over the far northern mountains with minor travel impacts
- Otherwise, dry conditions across the rest of the state with no significant impacts

Monday

- Dry conditions across the state with no significant impacts
